17 Sept 54

MEMORANDUM TO: Colonel White

SUBJECT : Proposed Supply Regulations for Authentication

1. Attached are 9 proposed Headquarters Regulations. They have been coordinated with and concurred in by all interested offices. I have read and reviewed each Regulation and recommend authentication and forwarding to Regulations Control Staff for publication.

25X1A

2. Regulation [REDACTED] Boards of Survey, establishes a Headquarters Board of Survey with the Chairman and the Recording Secretary to be appointed from the Logistics Office. That Office concurred in the proposed Regulation subject to the condition that Logistics be given 2 slots for the 2 people (Recording Secretary and stenographer) believed necessary to take care of this additional work. This condition should not affect the authentication of the Regulation. It is suggested, however, that Management Staff be requested to study this situation and the resulting work load and make recommendations. If you concur in this suggestion, this matter will be worked out with Management Staff.

3. Recommend signature (9) on the Regulations.
